Address: Dar-es-salaam, Tanzania

## PROFILE

My primary goal is to apply my technical expertise all throughout the full software life cycle to ensure production and delivery of products and services that meet client specifications. Along with a competent software developing team, and with strong personal knowledge, skills, and a little experience in software engineering, I am positive that this goal can be achieved. My experience as entry level software developer enhanced my abilities in designing and implementing. One of my objectives is to keep updated with the latest IT trends and technologies. I am confident that if given the opportunity, I can be a useful talent to the company.
